

8 IN 1 ULTRA CARE - sulfadimethoxine liquid

United Pet Group

UltraCare Marvel Aid is an antibacterial liquid which is intended for oral use in caged birds. When used as directed, Marvel Aid is effective in the treatment of bacterial infections which are susceptible to the actions of sulfadimethoxine. Symptoms of bacterial infections may include, but are not limited to: ruffled feathers, sleepiness (listlessness), diarrhea, loss of appetite, loss of weight, nasal discharge and difficulty breathing.

DIRECTIONS

Administer full strength solution as the sole source of drinking water. Use fresh solution daily for 5 consecutive days. If bird shows no sign of improvement, discontinue treatment and re-evaluate diagnosis.

Sulfadimethoxine 15 mg per fluid ounce.

Store at room temperature. If freezing occurs, thaw before using. Protect from light. Direct sunlight may cause discoloration. Freezing or discoloration does not affect potency. Do not use this product in conjunction with other antibiotic.
